SUBJECT INDEX 1991

— A —

ACHS
  accredited facilities 61
  standards in Australian hospitals, compliance with 111
adult discharge planning and nursing home placement, risk factors for quality assurance 95
algorithm development, designing care using 17
antipsychotic drug doses, a review 74
appropriateness evaluation protocol, application in an Australian children's hospital 123
appropriateness of Gentamicin assays, survey on 155
asthma clinical score and oxygen saturation 20
audit of cerebrovascular accident patients 106
Australia, quality assurance and general practice in 41
Australian children's hospital, application of appropriateness evaluation protocol in 123
Australian Clinical Review, Vision Statement 2
Australian hospitals, compliance with ACHS standards in 111

— C —

CADE unit, an evaluation of a 87
cerebrovascular accident patients, an interdisciplinary/multidisciplinary audit 106
chest physiotherapy, patterns of use in a teaching hospital 159
clinical algorithm development, designing care using 17
clinical chemistry, evolution of quality assurance in 56
coagulation tests in the Emergency Department 116

— D —

designing care, algorithm development in 17
drug doses, a review 74

— E —

education, for quality assurance 11
Emergency Department, coagulation tests in 116
evolution of quality assurance in clinical chemistry 56

— G —

general practice, quality assurance and 41
Gentamicin assays, survey on appropriateness of 155
guidelines and definition of quality assurance 22

— H —

health care quality management, future directions 28
health services, national invitational seminar on quality assurance in 34
Hilltop Lodge, an evaluation of a CADE unit 87
home glucose meters, quality assurance audit of Illawara PADP scheme 92
hospital
  application of appropriateness evaluation protocol in 123
  quality assurance at the Swan District Hospital 103
  St Vincent's, quality assurance programme in the Division of Corporate Services 51
  compliance with ACHS standards in 111
hospital-wide outcome study 132

— I —

in-house quality assurance seminar 117

I — *continued*

interdisciplinary/multidisciplinary audit of cerebrovascular accident patients 106

— N —

national invitational seminar on quality assurance in health services 34
nursing home placement, risk factors for quality assurance 95

— O —

oesophagectomy, peri-operative care for 45
organizational values, quality management through 77
outcome study, hospital-wide 132
oxygen saturation, asthma clinical score and 20

— P —

paediatric physiotherapy services, parent satisfaction survey 3
parent satisfaction survey, paediatric physiotherapy services 3
patient satisfaction with day surgery 143
patterns of use of chest physiotherapy in a teaching hospital 159
peri-operative care for oesophagectomy 45
physiotherapy services, paediatric 3

— Q —

quality and health care, future directions 28
quality assurance
  and general practice in Australia 41
  at the Swan District Hospital 103
  audit of Illawara PADP scheme home glucose meters 92
  adult discharge planning and nursing home placement, risk factors for 95
  definition and guidelines 22
  evolution in clinical chemistry 56

Q — *continued*

  in health services 34
  in-house seminar 117
  national invitational seminar on 34
  progress from zero to 364 registered activities 136
  social work and 82
quality assurance education, towards the year 2000 11
quality assurance programme in the Division of Corporate Services, St Vincent's Hospital 51
quality management through organizational values 77
quality, implications of variations in surgery rates on 164

— R —

reduction of complications associated with total parenteral nutrition 138

— S —

social work and quality assurance 82
St Vincent's Hospital, quality assurance programme in the Division of Corporate Services 51
Swan District Hospital, quality assurance at 103

— T —

teaching hospital, patterns of use of chest physiotherapy in 159

— V —

variations in surgery rates, implications for quality 164
Vision Statement, *Australian Clinical Review* 2
